Acuva Solarix is used for disinfection by using UV-C LED light that eliminates bacteria and viruses on contaminated surfaces. It disinfects common high touch surfaces that collect or breed harmful contaminants. It opens up to 270 degrees and can disinfect hard to reach contour areas. Its double click switch makes it easy to operate.

Acuva Solarix has been designed with world-class quality and safety features like Auto Shut, Safety Lock and Heat Sink. Acuva Solarix is already a popular device in Canada, the US, and

European markets and is now available in India through IRIS Global. Acuva Solarix comes with certification, warranty, and performance from a Technology leader.

“Acuva is committed to providing world-class disinfection products to its customers for their relevant usage in ongoing times. With a strategic partnership with Iris Global, we expect to reach out large customer base and fulfill their surface disinfection requirements in a chemical-free manner” said Mr. Sachin Goel, MD, India & South-East Asia, Acuva Technologies Inc.

Acuva Solarix is a must-have device for Business Professionals, travelers and for use in public places like Lounges, Restaurants, and homes. Iris Global is targeting Corporate Customers and eyes a Rs 10-crore business this financial.
