The most significant part is that the company has not retrenched even a single employee from the company during this period. Iris, continues significantly in empowering Digitalization of India, the education sector has been one of its strong forte, Iris has done whopping businesses over 100 crores in near past.

The company has successfully bagged a Rs 50 Crores bid to supply 8,000 Desktop Computers to Kendriya Vidyalaya Schools across the nation including the far flung areas in the North Eastern Region and remote areas of Andaman and Nicobar Islands.

Sanjeev Krishen, CMD, Iris Computer said, "This demand for computers have suddenly come up in view of the introduction of Online education so that the children should not lose their academic year in view of the Covid-19."

He said in this case, "We have been given the charge of delivering these desktop computers at its respective destinations by us and this is a great job of making it available to them well before time."

The company revealed that all these computers are from HP – a leading computer manufacturing company, Iris have been distributing since many years.
