Sanjiv Krishen, Founder & Chairman, Iris Global Services

In a significant development, Iris Global Services, a Delhi-headquartered India's leading IT distribution company, has received an order for supplying APC by Schneider Electric UPS systems to Hyderabad-based data centers. The order has been placed by a leading American software app company, Salesforce Automation. While, the deal has been executed by Systems Group, a Hyderabad-based channel partner of Iris Global Services.

Sanjiv Krishen, Founder & Chairman, Iris Global Services, says, "The supply of the segment leader products includes the best solution which can be provided for running any mission critical applications. These UPS systems would be in the range of 500 kVA to 800 kVA. They would be installed at three data

Sanjiv Krishen, Founder & Chairman, Iris Global Services, says, "The supply of the segment leader products includes the best solution which can be provided for running any mission critical applications. These UPS systems would be in the range of 500 kVA to 800 kVA. They would be installed at three data centers at Hyderabad to handle data traffic". "The most important part of the transaction is that the order was received from one of the Fortune 150 companies, and a leading American software firm", adds Krishen.

“
Iris Global has been supportive to us on the product selection and consolidation in every techno commercial aspect. They've also ensured timely delivery of products to the customer. This project till date is valued at Rs 12 Crore.

”
